Subject: Wells 2016 Comprehensive Plan

I am opposed to the 2016 re-write of the 2005 Plan. I found it difficult to compare the 2 versions, to know what had changed and why. I have concerns about the non-resident personnel involved . I have observed what I believe to be excessive condo development in our town, heavy traffic and environmental issues that I can't find addressed in the new plan. Thank you for including my opinion in your study.
