Subject: Concerns about Comprehensive Plan

Please be advised that I have thoroughly reviewed both the 2005 Plan as well as the draft 2016 Plan. The 2005 Plan is an understandable document which appears to represent the feedback of Wells residents, while the 2016 Plan draft is not understandable and does not appear to represent the the feedback from Wells citizens. Further, the process for the development of the 2016 document appears flawed. As a result I am opposed to the 2016 Plan draft and advise that it be abandoned and that a new Committee be formed from members of the community to update the 2005 Comprehensive Plan.

If the 2016 Plan draft is approved for ballot I will actively work for its defeat.

Sincerely,
Helen M Albert
