Subject: Proposed 2016 Wells Comprehensive Plan

To Whom It May Concern:

I write to voice my opposition to the proposed 2016 Wells Comprehensive Plan. It is a poorly written draft that should never have been put forward for public review. Unlike the 2005 plan, which I found to be well-written, this draft reads as if it was thrown together at the last minute by one/more individuals who spent little time, if any, reviewing the feedback provided by hundreds of Wells residents in response to the questionnaire sent to all of us some time ago.

I strongly suggest pushing the pause button, forming a new Wells Comprehensive Plan Committee, and taking the time necessary to create a well-written, well thought out plan that reflects the wishes of the community and sets direction for moving Wells forward in a positive way. I plan to oppose the adoption of the current version of the 2016 Plan.
